Many men would consider this the *Ultimate Gift*: A "Fantasy Photo" of you. You can get a sensual, provocative and stunning "Fantasy Portrait" made of yourself by contacting a photographer who specializes in the growing art form often called "Boudoir Photography."

Many of these photographers are women with a talent for making their subjects feel comfortable, and then bringing out the subtle, sexy side of your personality, and capturing it on film. "Lingerie" portraits seem to be most popular, followed by "Fantasy Outfit" shots, "Pin Up Girl" poses and "Playmate/Nude" photography.

Look for professional studios in your area, check references, or call:
